

AZHAR GHAFAR

@azharmughal861@gmail.com

Phone: 0329-0300036

Address: Lahore, Pakistan

Objective:

I am a beginner in software development with a strong interest in learning and growing as a developer. I have basic experience in building web applications using .NET (C#, ASP.NET MVC, Web APIs) and frontend tools like Angular, JavaScript, HTML, CSS, and Bootstrap. I have worked on small projects such as PakClassified (an OLX-style marketplace) where I practiced applying these skills. I am eager to learn from experienced developers, improve my coding skills, and contribute as a Junior Full-Stack .NET Developer.

Qualification:

Dot Net Developer Course (6 Month)	Continue
EVS Professional Training Institute	
B.Sc. Mechanical Engineering Technology (4 Year)	2024
Superior University of Lahore	
DAE Mechanical Die and Mold Engineering (4 Year)	2018
Precision System Training Center, Lahore under PCSIR	

Experience:

❖ .NET Developer Trainee XEVEN SOLUTIONS, LAHORE

JULY 2025 – Present

- ❖ Undergoing hands-on training in advanced .NET application development.
- ❖ Learned and applied modern software design patterns, including Microservices Architecture and CQRS.
- ❖ Worked with Dependency Injection (DI) to build loosely coupled applications.
- ❖ Practiced DTOs, Entity Framework (Code-First & Database-First approaches), Migrations, and ORM using SQL Server Management Studio.
- ❖ Explored Lazy Loading vs. Eager Loading for optimizing data access.
- ❖ Built and consumed RESTful Web APIs with a focus on scalability and clean architecture.
- ❖ Gained experience with LINQ, Asynchronous Programming (async/await), and Exception Handling for robust applications.
- ❖ Practiced Layered Architecture (Repository & Service patterns) to structure projects effectively.

❖ .NET Developer Trainee VISIONMATE, LAHORE

May 2025 – June 2025

- ❖ Contributed to a .NET training program by working on small to medium-level projects.
- ❖ Developed a **desktop application** using .NET Framework and Visual Studio 2022, focusing on UI design and database integration.
- ❖ Built a **Weather Channel Web App** with HTML, CSS, Bootstrap, and jQuery, integrating a third-party weather API through AJAX.

- ❖ Created a basic ASP.NET MVC web application with Razor views, controllers, and models to understand and apply the MVC design pattern.

❖ Practice Project EVS PROFESSIONAL TRAINING INSTITUTE, LAHORE

Feb 2025 – Continue

PakClassified (Cars Marketplace) – Full-Stack Web Application Angular 20 | .NET Core Web API

- ❖ Built a marketplace web app where users can buy and sell cars.
- ❖ Created backend APIs in .NET Core for authentication, category management, ads (CRUD), and transactions.
- ❖ Developed frontend in Angular with a responsive SPA design for smooth user experience.
- ❖ Integrated backend APIs with Angular to show and update data in real time.
- ❖ Key Features: User login/registration, ad posting, category-based browsing, and a clean modern interface.

Sabrouso Website – Responsive Frontend Design HTML5 | CSS3 | Bootstrap

- ❖ Designed a static responsive website using HTML, CSS, and Bootstrap.
- ❖ Focused on cross-browser compatibility and mobile-first design.
- ❖ Delivered a clean and professional look with simple UI/UX principles.

Technical Skills:

- ❖ Frontend: Angular, HTML5, CSS3, Bootstrap, JavaScript, TypeScript
- ❖ Backend: C#, [ASP.NET](#) MVC, .NET API, RESTful APIs, Entity Framework
- ❖ Database: SQL Server
- ❖ Tools: Visual Studio, Visual Studio Code
- ❖ Concepts: Object-Oriented Programming (OOP), UI/UX Design, API Integration, Responsive Design
- ❖ Pattern Concepts: Repository Pattern, IUnitOfWork Pattern, DTOs, Business Logic Services, MicroService Pattern, CQRS Pattern
